

4th July 2021

Dear Parents and Carers,

Next week is a very exciting week at St. Teresa's as it is STEM Week! During the week, the children will be undertaking lots of exciting tasks linked to Science, Technology, Engineering and Maths. Traditionally, we have a Mufti Day to celebrate all things STEM and the date of this for all children will be **Wednesday 13th July**. This year's Mufti Day will be **FREE**.

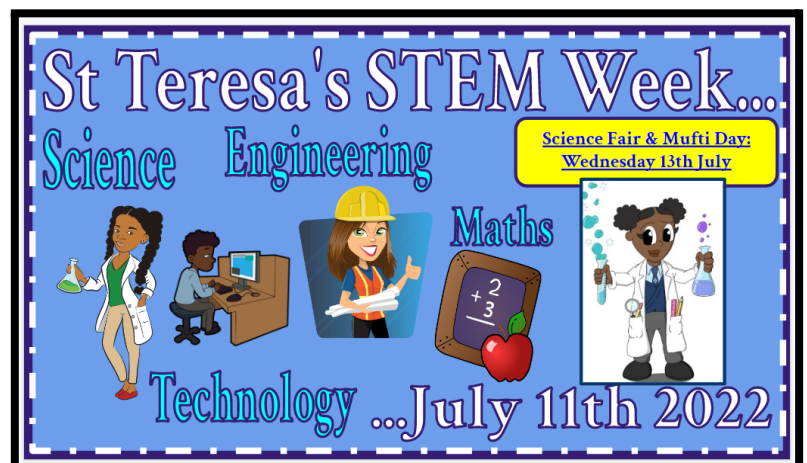

Being a week that celebrates such a variety of subjects, there is a huge range of different things children can dress up as on Mufti Day.

*Here are just a few suggestions:*

- Your favourite animal (try giving your teacher your most interesting fact about the animal).
- A famous scientist / inventor / invention.
- A planet / rocket / spaceship / astronaut.
- A person in a STEM career- builder, gas engineer, electrician, plumber, mechanic etc.
- An alien.
- A robot.

These are just some ideas but please encourage your children to be as creative as they can with their choice of outfit on the day.

Lastly, also on Wednesday 13th, the school will be hosting their annual Science Fair. Children are encouraged to work on a science experiment or project at home over the next week (there are lots of ideas and inspiration on youtube), prepare a small presentation and bring it in on **Wednesday 13th** to show their classmates and perform the experiment live. This is an optional activity but one that we encourage as many children as possible to get involved with.

Yours sincerely,

Mr. Humphrey  
Science Leader
