Amateur digger finds massive gold nugget with metal detector

Science Word of the Week

LEDs

LEDs, or light-emitting diodes, light up TV screens, traffic lights and many other devices used in daily life.

LEDs provide the most energy-efficient lighting today and they come in every colour in the rainbow.

The Big Question...

Why is
the
Sun
yellow?

Click the picture above for the answer this this week's Big Question.

Do you have a science news story you want to share?

How about a lovely piece of science work you're proud of?

Perhaps an extraordinary experiment or piece of research you've done at home?

What about a wonderful science word for our Word of the Week?

Let your teacher know or come and see Mr. Humphrey
